
SIMPLY KNOW WHEN IT'S PERFECT - WITH THE EASY CHECK THERMOMETER BY OUTDOORCHEF

When the smell of grilled food is in the air, the embers are burning evenly and the anticipation of the first bite is rising, only one thing counts: perfectly cooked barbecue food. The new EASY CHECK barbecue thermometer from Outdoorchef offers this with wireless technology and smart app control. It simultaneously measures the core temperature of the food and the cooking chamber temperature – precisely, reliably and hygienically. This results in juicy steaks, tender pulled pork or aromatic fish without any guessing, cutting or stress. Instead, there is more time for spending relaxed moments and really enjoying the barbecue. EASY CHECK ensures safety, control and enjoyment.

The moment when the steak reaches the ideal core temperature, the chicken remains juicy and the long job comes off the grill with pinpoint accuracy - that's precision. With the EASY CHECK barbecue thermometer from Outdoorchef, every BBQ expert now gets a grill gadget with a guarantee of success. The wireless helper impresses with its innovative technology, smart app connection and sophisticated design – for perfect results and relaxed grilling pleasure.

The EASY CHECK measures the core temperature of the food and the temperature in the cooking chamber with pinpoint accuracy. This is made possible thanks to two separate sensors in the same probe, allowing thus precise control of all cooking stages, regardless of whether fish, poultry, beef or vegetable alternatives are on the grate. Even large pieces of meat or long jobs that are cooked for hours at a low temperature can be easily monitored. The temperature sensor with a diameter of just 5 mm works with an accuracy of $\pm 1^\circ\text{C}$, is heat-resistant up to 300°C and lasts for up to 30 hours thanks to its powerful battery.

The thermometer can be controlled either via the multifunctional dock, which also serves as a charging station, display and range extender, or via the intuitive smartphone app with a wide range of features. These include timer and alarm functions, an extensive core temperature library as well as the option to set your own customised target temperatures. Another benefit: the range in standalone mode is up to 50 metres, with a smartphone even up to 200 metres.

After grilling, the EASY CHECK thermometer can be easily cleaned in the dishwasher. It is available in two versions – with one or two sensors – each including a dock. Once again, Outdoorchef shows that real innovation does not have to be complicated: reliable, precise and with an unbeatable price-performance ratio.

Price Single from 79 € (RRP), Price Dual from 119 € (RRP), Price Quadro from 179 € (RRP)

THE HIGHLIGHTS AT A GLANCE

- Wireless Bluetooth barbecue thermometer with extra-slim probe (Ø 5 mm)
- Extra-long range of up to 200 metres in repeater mode with smartphone app
- With multifunctional dock for charging the sensor, as a repeater for maximum range, for reading the core temperature and for storage
- Extra-long battery life of over 30 hours - also ideal for long jobs
- Extra large measuring range from -10°C - 300°C - robust and extra heat-resistant probe (dishwasher-safe)

ABOUT OUTDOORCHEF

SWISS TECHNOLOGY FOR THE PERFECT BARBECUE EXPERIENCE - FOR THE WHOLE FAMILY, WHETHER YOU'RE AN EXPERT OR A BBQ BEGINNER!

Outdoorchef has been a pioneer in the field of barbecue technology for more than 30 years. The company has made a name for itself with its ingenious, patented gas kettle barbecue system, which prevents grease fires and enables both direct and indirect grilling. The result? A fantastically even and reliable barbecue result that is second to none - and not just for experienced barbecue masters, but also for beginners in the world of barbecuing. But that's not all! The innovative system also impresses across the board when it comes to cleanliness. Hardly any barbecue on the market is easier to clean. Thanks to Outdoorchef's Swiss technology, barbecue fans can concentrate fully on enjoying their barbecue without having to worry about tedious cleaning work. With its products, Outdoorchef offers the perfect combination of innovation, quality and user-friendliness and provides unforgettable barbecue moments - true to the motto: for the whole family, from barbecue beginners to experts!
