
EASY BBQ VAC FROM OUTDOORCHEF IMPRESSES WITH UNIQUE FRESHNESS - THE NEW VACUUM SEALING SYSTEM FOR BBQ ENTHUSIASTS, FOOD LOVERS AND FAMILIES

For BBQ fans, the best time of year begins as soon as the smell of grilled steak, freshly smoked fish or aromatic vegetables fills the air - and it certainly doesn't end in summer. With the new vacuum sealing set from Outdoorchef EASY BBQ VAC, you can now not only prepare the perfect festive menu, but also preserve the quality and freshness of food for weeks on end. Just in time for Christmas, Outdoorchef is launching a clever complete package that combines functionality, indulgence and sustainability - ideal for anyone who loves good food and wants to enjoy it even longer.

Freshness at the touch of a button with the Outdoorchef EASY BBQ VAC set

The EASY BBQ VAC set makes vacuum sealing food easier than ever before: fully automatic, powerful and handy, it ensures that meat, fish, vegetables, fruit, drinks and desserts stay fresh up to eight times longer. Vacuum sealing is particularly suitable for grilled specialties, as it speeds up the marinating process and makes the meat even more aromatic. Sous-vide cooking also becomes child's play. Pre-cook the meat in a water bath to perfection and then give it the perfect branding on the barbecue. The set contains everything you need

to get started: four glass containers, 18 zip bags and three wine bottle stoppers make it universally applicable. The powerful pump with a capacity of 12 litres per minute and a battery life of up to 85 minutes guarantees professional results - cordless and with a practical charging station (USB-A and USB-C) included.

Outdoorchef EASY BBQ VAC vacuum bags - versatile, strong and reusable

The reusable EASY BBQ VAC vacuum bags are the perfect accessory for anyone who values durability and flexibility. Available in two multipacks (sizes S/M and L/XL) in addition to the set, they not only keep food fresh up to eight times longer, but also reliably protect it from freezer burn. The extra-strong material makes them particularly tear-resistant - even with sharp bones or fish bones. Thanks to the zip closure, they are easy to open and close and are extremely versatile: whether for freezing, sous-vide cooking (boil-proof up to 100 °C for max. 8 hours), in the microwave (up to 12 minutes at 650 watts) or for cleaning in the dishwasher.

Vacuum containers - practical and sustainable

The high-quality glass vacuum containers with BPA-free plastic lids perfectly round off the system. Available in various sizes (2 x 500 ml, 1 x 1500 ml, 1 x 2600 ml), either as a set or separately, they are suitable for everything from fresh vegetables and meat specialties to leftovers from Christmas dinner. Whether for storage, transport or serving, the containers are microwave-safe, heat-resistant up to 350 °C, freezer-safe down to -18 °C and can be conveniently cleaned in the dishwasher. A must-have for every modern kitchen.

Freshness reimagined for uncompromising indulgence

With the new EASY BBQ VAC from Outdoorchef, your kitchen becomes an oasis of freshness. Whether for BBQ enthusiasts, amateur chefs or families who want to organise their supplies more intelligently, this complete system ensures less food waste, more indulgence and perfect results, from preparing for the BBQ to storing the cooked delicacies from the grill so that they retain their flavour. Even the roast beef or Christmas ham for the holidays can be prepared stress-free. This leaves more time for what really matters - enjoying moments together with family and friends. An innovative Christmas gift that not only delights during the festive season, but also makes culinary adventures possible all year round.

Price EASY BBQ VAC from € 199 (RRP)

ABOUT OUTDOORCHEF

SWISS TECHNOLOGY FOR THE PERFECT BARBECUE EXPERIENCE - FOR THE WHOLE FAMILY, WHETHER YOU'RE AN EXPERT OR A BBQ BEGINNER!

Outdoorchef has been a pioneer in the field of barbecue technology for more than 30 years. The company has made a name for itself with its ingenious, patented gas kettle barbecue system, which prevents grease fires and enables both direct and indirect grilling. The result? A fantastically even and reliable barbecue result that is second to none and not just for experienced barbecue masters, but also for beginners in the world of barbecuing. But that's not all! The innovative system also impresses across the board when it comes to cleanliness. Hardly any barbecue on the market is easier to clean. Thanks to Outdoorchef's Swiss technology, barbecue fans can concentrate fully on enjoying their barbecue without having to worry about tedious cleaning work. With its products, Outdoorchef offers the perfect combination of innovation, quality and user-friendliness and provides unforgettable barbecue moments - true to the motto: for the whole family, from barbecue beginners to experts!
